Canon and Even

DESIGNED BY BASSAMFELLOWS

From designers BassamFellows, this pair of high-performing textiles expands the Geiger Textiles color palette while addressing a need for entry-level options. Priced at just $25/yard, both patterns are available in beautifully coordinated colorways. A pebbled rib weave, Canon comes in 12 colorways—two more than Even, which has a crisp, heathered look. Adding convenience to versatility and value, both Canon and Even are sourced from a mill located just 10 miles from our seating manufacturing facility in North Carolina.

Canon and Even

DESIGNED BY BASSAMFELLOWS

CANON

A highly durable, bleach-cleanable 100-percent polyester rib weave, Canon reads as a pebbled pattern thanks to the contrast yarn in its warp. Its range of available colorways coordinates beautifully with that of its sibling pattern, Even. A true multi-use high-performer, Canon upholsters beautifully whether it's specified on Geiger seating and tackboards or upholstered walls and acoustical panels.

EVEN

Even weaves together three 100-percent polyester yarns to create a subtle heathered pattern. Its crisp, flinty texture tailors beautifully on seating, Geiger tackboards, upholstered walls, or wrapped acoustical panels for conference rooms. Wherever it's used, Even stands up to wear thanks to its highly durable, bleach-cleanable composition.
