## GEIGER

## H Frame<sup>™</sup> Storage

DESIGNED BY WARD BENNETT, 1963. REINTRODUCED IN 2004

A sleek combination of wood and chrome, H Frame Storage reveals its designer's modernist side. Ward Bennett devised this modular approach to storage, with flexible units of open shelving, enclosed cabinets, file drawers, or box drawers, each bracketed by a metal H-shaped frame. Units can be configured into two-, three-, or four-unit credenzas in an exacting grid that's finished from all sides, so they can function as low-profile room dividers.

DIMENSIONS Credenza Height: 26 1/2"

Width: 31", 61 1/2", 92" or 122 1/2"

Depth: 14"

CONSTRUCTION Case: Wood

Base and Pulls: Metal

Top: Wood, Stone (available on select units)

WARRANTY 12 Years

MADE IN USA
