Parts List

Tools Required

- o Level
- o Drill
- o #2 Square Robinson Drill Bit

ROS-LYTB Layer Tables

1BHFRS

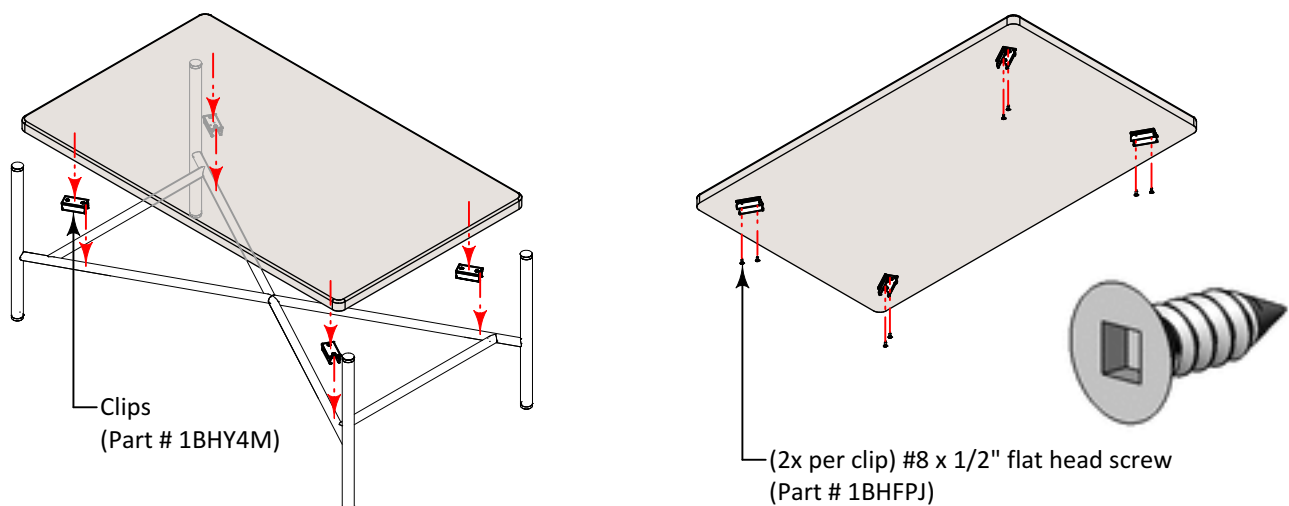

1a. Attach Stone Subtop

- Affix clips to frame, roughly 2" in from the ends of the base crossbeams. Note: Number of clips vary from four to eight depending on base size.
- Peel double-sided tape from top of clips.
- Place and press stone atop clips, being careful to center stone over base.

1b. Attach Wood Subtop or Wood Drawer

- Affix clips to frame, roughly 2" in from the ends of the base crossbeams. Note: Number of clips vary from four to eight depending on base size.
- Peel double-sided tape from top of clips.
- Place and press wood or drawer atop clips, being careful to center over base.
- Remove wood top or drawer with attached clips from base.
- Fasten clips to underside of wood top or drawer.
- Replace wood top or drawer with fastened clips to frame.
