Cultura Collection

DESIGNED BY BASSAMFELLOWS

The Cultura Collection is a celebration of time-honored craft across cultures. Abundant in color and energy, Cultura is inspired by textures and patterns found in the rebozo, a traditional Mexican women's garment. This iconic emblem with a storied history is celebrated for the intricate craftsmanship involved in its weaving production.

Versatile in design and application, the collection is crafted using Sunbrella® Solution Dyed Acrylic fiber. Sunbrella performance fabrics are made to last—durable, fade resistant, easy to clean, and comfortable enough for indoor and outdoor spaces. The Cultura Collection is suitable in virtually every application, including private offices, lobbies, outdoor seating, hospitality, and healthcare applications.
