

# Leather Maintenance

To maintain the quality of your Geiger leather, please follow the cleaning procedures outlined.

The instructions for the care and maintenance of Geiger products are provided to you as a service. No warranty is implied since results may vary.

#### NORMAL CLEANING

Vacuum or dust frequently with a clean, dry cloth.

If leather is soiled, it can be wiped with a soft, damp cloth using a lather of any mild soap with lukewarm water.

Do not spot clean leather; clean the entire surface.

Wipe clean with a damp cloth and dry with a clean, soft cloth.

## SPOTS AND SPILLS

Wipe excess liquid immediately with a clean cloth or sponge; let the leather air dry.

If further cleaning is necessary, sponge the entire surface—seat, back, or chair arm—with lukewarm water.

Let the leather air dry; never use a hair dryer or other heat source to dry leather.

## STUBBORN SPOTS AND STAINS

Apply a mild, nonabrasive soap solution with a clean, wet sponge.

Rinse well and let air dry.

## BUTTER, OIL, OR GREASE

Wipe the leather with a clean, dry cloth and let the remainder of the oil dissipate into the leather.

Do not apply water or try to wash a grease spot.

Do not use saddle soap, cleaning solvents, oils, furniture polishes, varnishes, abrasive cleaners, detergents, or ammonia on leather; they will ruin the finish, causing it to become sticky and cracked.

If the stain remains, contact a professional cleaner.

## LARGE AREAS

If large areas are soiled, contact a professional cleaning firm.

The information above is a guide to help in the maintenance of Geiger Textiles. Geiger can neither guarantee, nor take responsibility for specific results.

Under no circumstances shall Geiger be liable for any incidental, consequential, or other damage resulting from negligence, misuse, mishandling, or exposure of any chemicalsused in connection with maintenance. Information relating to chemicals/cleaning solvents, environmental use, and human exposure should be reviewed with appropriate suppliers.

All label instructions on their use and precautions should be followed.
