Jolie Collection

DESIGNED BY BASSAMFELLOWS

With a nod to Chanel suits and nubby mid-century upholstery, the Jolie Collection is a study in duality—masculine and feminine style, timeless and current. These weaves add to the foundational classics created for Geiger Textiles by BassamFellows, offering a range of textures, scales, and colors.

PRISTINA

A classic wool bouclé that takes inspiration from the highly tactile upholstery made famous in mid-century design, Pristina has a considerable stretch that allows the textile to upholster beautifully on curved furnishings. Its two-toned texture—thanks to the looped bouclé—adds depth, and it's offered in eight neutral colorways, making it a staple for any collection.

STARLET

As the name suggests, Starlet is a natural standout—reminiscent of the classic Chanel suit, blending both masculine and feminine style with ease. The use of fancy yarns gives Starlet its notable sense of style—including an elaborate bicolor yarn similar to chenille and a metallic polyester yarn that gives the fabric a subtle glimmer. In colors ranging from neutral to vibrant, it's easy to see why Starlet shines.
