Introduction

A Note on the Organization of This Book

There are a few signals that will help you understand the organization of this book. Once you know them, you should be able to find your way around easily.

Like a newspaper, this book is formatted with columns of text and illustrations that run vertically.

Information wraps from one column to the next and continues for as many pages as it needs to.

Black bars are clues.

A black bar at the top of a page signals the start of information about a product.

This information is divided into two sections, each signaled by a black bar. Product Information includes a description, additional notes, and dimensional drawings. Specification Information, which always begins at the top of a column, includes a series of steps. Each step represents a decision you need to make in order to complete your product number. Steps must be followed sequentially. The number of pages needed to complete information on a product varies; some will be complete in one page; others may fill three or four pages. Just continue going through the steps until you run into the next product, signaled by the black bar at the top of the page.

Black tabs running along the outside edge of the page help you locate what section you are in or what section you want to go to. You can thumb forwards or backwards to find a section; tabs and text appear on both sides of the page.

The additional pages in the back of the book include the appendices and indices. They are signaled by a long black bar running along the outside edge of the page.

The index is presented two ways.

The first index is in alphabetical order by product name. It can be helpful if you are new to the products and numbering scheme or if you are looking for a type of product, such as work chair or round table.

The second index is by product number. It lists, in alphanumeric order, the base product number, typically a five-digit number.

General Information

This book is effective October 7, 2024, subject to change without notice. Products may be purchased from authorized Herman Miller dealers who will quote prices upon request. For more information about our products and services or to see a list of dealers, visit www.HermanMiller.com.

All prices are list prices. Additional services, such as planning services, design, storage, and installation, are not included and must be added to these prices when the additional services are requested.

Illustrations, specifications, and prices are based on the latest information at the time of publication. The right is reserved to make changes at any time without notice in prices, fabrics, finishes, materials, specifications, and models, and also to discontinue models and finishes.

Dimensions shown in the drawings are engineering drawing dimensions rounded up to the nearest $1/8$". Product is shipped set up or knocked down. Products that include "Shipped knocked down" in the description require some assembly. If this statement does not appear in the description, the product is shipped assembled.

Service problems are normally handled by a Herman Miller authorized dealer. Where this cannot be accomplished on a local level, service problems should be referred to the Customer Care Representative for your region, Herman Miller, Inc., Zeeland, Michigan 49464.

20-Day or Less/Assigned Lead-Time Shipments

All products and options in this price book not designated by an Assigned Program icon [A] will ship in **20 business days or less** after being acknowledged by Herman Miller.

Products and options designated by an [A] are on the assigned lead- time program and may ship in 20 days, less than 20 days, or more than 20 days from order acknowledgement.

# Work Surface Tile   TW124.

Product Information

Description

This tile attaches to 2 rail-attached stiles to provide mounting of a work surface and has a 3D laminate surface. Durawrap™ 3D laminate is a 99.9% PVC-free material. It has partially-drilled holes in the back for seated-height and standing-height surfaces. The top and bottom edges are ship lapped (shingled); creating a flush joint between tiles that prevents liquids from seeping back.

# Linen Cart Tile   TW130.

Product Information

Description
This tile attaches to 2 rail-attached stiles below a work surface to provide a docking area for a linen cart. It includes 2 guides that attach to the work surface support brackets to help align the cart in its stored position. The top and bottom edges are ship lapped (shingled); creating a flush joint between tiles that prevents liquids from seeping back.

Notes
Order cantilever (TW219.) separately. Linen cart guides will attach to work surface support brackets.

Utility Tile, Electrical, Lower   TW140.

Product Information

Description

This tile attaches to 2 rail-attached stiles in the lowest position and has cutouts for various combinations of electrical access. The top and bottom edges are ship lapped (shingled); creating a flush joint between tiles that prevents liquids from seeping back. The tile has a 3D laminate surface. Durawrap™ 3D laminate is a 99.9% PVC-free material. Cutout trim plates are not included.

Notes

Tile attaches to the bottom position on stiles only.

Specify utility support rail (TW170.) separately for each row of cutouts in utility tile.

Specify electrical junction box attachment bracket (TW172.) for each individual cutout in utility tile.

Utility Tile, Electrical, Partial-Height Upper   TW141.

Product Information

Description

This tile attaches to 2 rail-attached stiles in the middle or upper position and has cutouts for various combinations of electrical access. It can also be used for mounting a flat panel television or monitor. The top and bottom edges are ship lapped (shingled); creating a flush joint between tiles that prevents liquids from seeping back. The tile has a 3D laminate surface. Durawrap™ 3D laminate is a 99.9% PVC-free material. Cutout trim plates are not included.

Notes

Tile will not attach in the bottom tile position.

When mounting a flat panel television or monitor, specify tv/monitor support bracket (TW175.) separately.

When mounting a flat panel television or monitor, specify tile with one of the following options:
• Single cutout center, row 3 option (A)
• 2 single cutouts center, row 3 option (B)
• 3 single cutouts center, row 3 option (C)

Specify utility support rail (TW170.) separately for each row of cutouts in utility tile.

Specify electrical junction box attachment bracket (TW172.) for each individual cutout in utility tile.

Nurse Call Trim Plate   TW159.

Product Information

Description

This plate attaches to a utility tile to fill the gap between the cutout and a junction box trim plate when housing a device such as 37-pin connector plug, 3- or 4-gang nurse call button, code blue button, or staff assist button. Finish is metallic silver.

Notes

Nurse call trim plate works in conjunction with field-supplied junction box trim plate.

Electrical 4x4 Junction Box Attachment Bracket

TW174.
Product Information

Description

This bracket attaches 1 4x4 junction box to a utility support rail. It can be used with ¾″ or 1″ conduit alignment. Package contains 2 brackets. Rail attachment screws included.

Notes

Specify utility support rail (TW170.) separately.

Offers adjustment for ¾″ or 1″ conduit alignment.

Shipped in ¾″ conduit alignment.

Wardrobe Cabinet   TW300.

Product Information

Description

This non-locking cabinet attaches to 2 64″-high rail-attached stiles to provide storage for patient clothing and personal items. It has an upper interior shelf and a rod for hangers, and is available with a lower drawer. Top of cabinet requires a sloped cabinet top close-out, specified separately. The outside of the cabinet and the door/drawer fronts have 3D laminate surfaces. Durawrap™ 3D laminate is a 99.9% PVC-free material.

Notes

Drawer option (D) has full-extension ball-bearing slides.
No drawer option (N) has a full-height door with an additional lower shelf.
For bow pull option (C), pull finish is matte stainless. For arc pull option (D), pull finish is brushed nickel.
Specify close-out, sloped cabinet top (TW406.) separately.
Drawer liner will be installed if selected on unit.

Full Height Storage Cabinet   TW302.
Product Information

Description

This storage cabinet attaches to 2 64″-high rail-attached stiles to provide storage for supplies. It comes with 4 adjustable shelves or 2 adjustable shelves and a Co/Struc® adapter that mounts inside the cabinet. The adapter has 9 slots at 3″ intervals to support Co/Struc storage components and accessories. The adapter allows the interior flexibility of Co/Struc storage products with the aesthetic of Compass™. If top of cabinet requires a sloped cabinet top close-out, specify separately. The outside of the cabinet and the door front have 3D laminate surfaces. Durawrap™ 3D laminate is a 99.9% PVC-free material.

Notes

For Co/Struc adapter option (C), order storage components separately:
• A-, B-, or C-size drawer (CO207, CO208, or CO209)
• C tray/shelf (CO203)
• C wire shelf (CO252)
For bow pull option (C), pull finish is matte stainless. For arc pull option (D), pull finish is brushed nickel.
Specify close-out, sloped cabinet top (TW406.) separately.

Half-Height Storage Cabinet   TW305.
Product Information

Description

This half-height storage cabinet attaches to 2 64″-high rail-attached stiles to provide storage for supplies. It has 3 adjustable shelves. It is 45½″ high to allow for a refrigerator, equipment, or linen cart to stow below. If top of cabinet requires a sloped cabinet top close-out, specify separately. The outside of the cabinet and the door front have 3D laminate surfaces. Durawrap™ 3D laminate is a 99.9% PVC-free material.

Notes

For bow pull option (C), pull finish is matte stainless. For arc pull option (D), pull finish is brushed nickel.

Specify close-out, sloped cabinet top (TW406.) separately.

If using a linen cart (TW501.) with this cabinet, specify linen cart tile with backsplash (TW130.BW) separately. Bottom of cabinet has hole template to facilitate installation of linen cart guides included with linen cart tile.

When no linen cart will be used, specify 24″ work surface tile with backsplash (TW124.24BW) separately.

Drawer Module   TW310.

Product Information

Description

This module attaches to 2 rail-attached stiles to provide storage below a work surface and has drawers with full-extension ball-bearing slides. The outside of the module and the drawer fronts have 3D laminate surfaces. Durawrap™ 3D laminate is a 99.9% PVC-free material.

Notes

For bow pull option (C), pull finish is matte stainless. For arc pull option (D), pull finish is brushed nickel.

Lock option (L) locks the top drawer only.

Specify work surface (TW210.) separately.

It is recommended to order a work surface with a backsplash. If ordering a work surface without a backsplash, a special-height mini-tile would need to be ordered.
Drawer liner will be installed if selected on unit.

Lower Storage Cabinet with Doors   TW312.
Product Information

Description

This storage cabinet comes in 3 widths and 13″ & 21″ depths and includes a wall saver. A fixed shelf is located 4″ from the bottom of the interior cabinet. Interior cabinet color is white.

Notes

Specify work surface (TW210./TW211.) separately to close off the top.

For power access (P), specify utility support rail (TW170.) and 2 single-gang electrical junction box attachment brackets with or without J-box (TW172.) separately.

It is recommended to order a work surface with a backsplash. If ordering a work surface without a backsplash, a special-height mini-tile would need to be ordered.

For lock option (L), one door has a keyless lock and the other door has a keyed lock.

For the flex pull (B), bow pull (C), and arc pull (D), the doors contain a pocket behind the handle. The no pull (N) door contains no pocket.

Drawer and Printer Module   TW314.
Product Information

Description

This 24″-wide nonpowered storage module attaches to 2 rail-attached stiles to provide storage below a work surface. It has drawers with full-extension ball-bearing slides. Below the drawers is an open cabinet with a fixed-height slide-out shelf to support a printer. Back panel has an 8″ x 10″ sealed opening for ease of wiring. Cabinet interior has a white melamine surface. The outside of the cabinet has a 3D laminate surface. Durawrap is 99.9% PVC free. Includes a wall saver to protect the architectural wall behind the module.

Notes

For bow pull option (C), pull finish is matte stainless. For arc pull option (D), pull finish is brushed nickel.

Lock option (L) locks the top drawer only.

Specify work surface (TW210.) separately.

It is recommended to order a work surface with a backsplash. If ordering a work surface without a backsplash, a special-height mini-tile would need to be ordered.

Drawer liner will be installed if selected on unit.

Glove and Paper Combo Cabinet   TW326.

Product Information

Description

This non-locking combination glove and towel cabinet attaches to 2 rail-attached stiles in the upper tile position and holds 3 boxes of gloves and a field supplied paper towel dispenser. Hinged door(s) have a magnetic closure. Cabinet interior has a white melamine surface. The paper towel cabinet is in the back center of the cabinet in all sizes. The outside of the cabinet has a 3D laminate surface. Durawrap™ 3D laminate is a 99.9% PVC-free material.

Notes

It is recommended to leave an empty box (if a particular glove size is diminished) to hold the other boxes in place.

There is extra storage space on the top shelf (included) for 2 additional boxes of gloves (horizontally) for 24″-wide cabinets and for 3 additional boxes of gloves for 36″-wide cabinets.

Compass™ Storage

Waste Receptacle Cabinet   TW316.
Product Information

Description
This waste cabinet attaches to 2 rail-attached stiles to provide storage for a waste receptacle below a work surface. A slim profile bracket attaches to the door that holds the waste receptacle. Cabinet is designed to accommodate a 7-gallon or 10-gallon waste bin. Door is available with a cutout to allow touch-free access to the waste bin. Cabinet interior has a white melamine surface. The outside of the cabinet has a 3D laminate surface. Durawrap™ 3D laminate is a 99.9% PVC-free material. Includes a wall saver to protect the architectural wall behind the module.

Notes
Waste bin not included. See Planning Guide for recommendations.

For bow pull option (C), pull finish is matte stainless. For arc pull option (D), pull finish is brushed nickel.

Specify work surface (TW210.) separately.

It is recommended to order a work surface with a backsplash. If ordering a work surface without a backsplash, a special-height mini-tile would need to be ordered.

For flex pull (B), bow pull (C), and arc pull (D) options, the doors contain a pocket behind the handle. The no pull (N) door contains no pocket.

Close-out, Side   TW400.
Product Information

Description

This plastic close-out finishes the exposed side of a stile at the end of a wall rail.

Notes

When wall rails extend past the stile and close-out, specify cutout(s) for wall rail option (C). Finish the cutouts with close-out grommet (TW409.), specified separately.

Close-out with cutout(s) for wall rail option (C) has 1 cutout for 24″-high, 2 cutouts for 64″- and 89″-high.

When close-out, sloped cabinet top (TW406.) or chase tile (TW182.) is present, an 89″ close-out, side is required and must be field cut to height. Top edge of close-out is flat.

91	white (CP)	+$0
LU	soft white	+$0

Close-out, Top   TW402.
Product Information

Description

This aluminum close-out finishes the gap between the architectural wall and tiles at the top of rail-attached stiles. It has a 20° slope for ease of cleaning and infection control. It can be field-cut to match the width of the wall, or to accommodate a chase. Attachment hardware included.

Notes

When close-out, sloped cabinet top (TW406.) or chase tile (TW182.) is used in combination with the top close-out, the top close-out must be specified in the next larger size for the applied module span and must be field cut down to that module span.

If no sloped top or chase tile is present, the top close-out width should match the overall module width.

Accessory Rail   TW700.
Product Information

Description

This aluminum rail attaches to the front of a tile to hold rail-mounted components. It has a satin oxide laminate insert and grey end caps. Attachment hardware included.

Notes

Rail can match tile width, or span multiple tiles. For easy removal of tiles, accessory rail width should be equal to or less than the width of the tile it's attached to.

20-Day or Less/Assigned Lead-Time Programs

20-day or less and assigned lead-time products are designed for established Herman Miller dealers with pre-approved credit.

Products are distributed from multiple manufacturing facilities across the United States. All products and options not designated by an Assigned Lead-Time icon A will ship in 20 business days or less after being acknowledged by Herman Miller. Products and options designated by an A are on the assigned lead-time program and will ship in 20 days, less than 20 days, or more than 20 days from order acknowledgement.

Ordering Procedure

Please place orders through Order Manager. If this is not available to you, place orders through mail or fax. Verbal purchase orders will not be accepted.

Changes and Cancellation

Per Herman Miller Terms and Conditions.

Packaging/Keyed-Alike Information —
Compass™ System

GSA

Packaging

Packaging varies according to individual product. A surcharge may be added for special packaging requests. Contact Customer Care for specific information.

Keyed-Alike Locks

All components with locks may be specified keyed alike.

Keyed-alike Compass System components will be shipped with lock chassis installed. Lock plugs will be shipped separately, tagged for product and location as specified. Installation of lock plugs will be on-site according to instructions provided. Herman Miller Inc., will not be responsible for lock plug installation.

To order keyed-alike locks for Compass System components, specify keyed alike. Then place a separate order for plugs and locks:

1. List plug part number and key number (232092-XXX); select a key number (or numbers) between 226 and 427, excluding numbers 408 and 412.
2. List quantity of locks per key number.
3. Indicate this is a no charge order.
   Keyed-alike locks are field installed.

A master key can be used to open any lock on a Compass System component. To remove lock plugs from existing components, a removal key (#232228) or lock change tool (#234559) is required. Customers interested in ordering master keys, removal keys, or lock change tools should contact Customer Care with a written request.
